HOLDING OUT HOPE.

Some Prospects of the Miners' Strike Being Settled.

CONFERENCE HELD IN COLUMBUS.

Pittsburg Coal Operators Will Meet the National Executive Board of the United Mine Workers of America and Try to Effect a Compromise—Arbitration Proposed—Situation of the Strike.

PITTSBURG, Sept. 2.—Pittsburg coal operators will meet the national executive board of the United Mine Workers of America at Columbus, O., today. A conference will be held, and it is very probable that the big strike will be settled, not, however, until the miners of the Pittsburg district have a say. This in brief is the situation and hopes are high that a settlement will follow the conference. It may be prevented though by one side or the other failing to make concessions that seem to be in sight.

W. P. Bonney, who represents the Scott interests; George W. Schlenderberg, U. A. Andrews and J. O. Dysart all boarded the train last night for Columbus. None of them would say anything for publication, except Mr. Dysart. He said: "The miners' officials have asked to confer with us, and we are going to Columbus for that purpose. That is all I can say."

It is expected that several of the operators from Cleveland will also be in Columbus and attend the conference.

That the miners' officials think favorably of the proposition submitted by Thomas F. Young, is very evident. A private message from District President Dolan says the proposition will be considered, but that he was in favor of standing out for the 69-cent rate pending arbitration. If the executive board decided otherwise he said he would not agree to it unless his constituents were consulted.

From one of the operators it was learned that some of the local officials of the miners are in favor of accepting the proposition, and it is almost certain that a convention will be called. Whether the miners of the district will agree to the compromise is another question. Just now they are much elated over the large attendance at their mass meetings and the firmness exhibited by the men. Many are of the opinion that they can win out by holding on a short time longer, as the operators must have coal for the lake trade. The operators are anxious to start, and if a settlement is not reached at Columbus it is known that they will resume work with imported men.

Secretary William Warner issued a letter to the miners last night assuring them that no settlement would be made at Columbus below the 69-cent rate without first consulting them in convention.

COLUMBUS CONFERENCE.

Miners' Officials Not Favorably Disposed to the Operators' Proposition.

COLUMBUS, O., Sept. 2.—The national executive board of the United Mine Workers of America will meet here today to consider a proposition from the Pittsburg operators for the miners in that district to return to work at 64 cents a ton, pending arbitration. President Ratcliff has extended an invitation to the operators to have representatives present and explain their proposition fully.

President Ratcliff refused to talk on the probable outcome of the national board meeting until more is known of the proposition of the Pittsburg operators. The miners' officials are not disposed to regard favorably any proposition for an agreement for the remainder of the present year only. If any agreement is made they desire that it shall be for a full year.

UNIFORMITY PLAN REVIVED.

W. P. Dearmit Has at Last Signed the Agreement.

PITTSBURG, Sept. 2.—W. P. Dearmit, president of the New York and Cleveland Gas Coal company, yesterday evening attached the signature of his company to the uniformity agreement. This signature has been looked for for a long time and some of the promoters of the scheme were beginning to despair of getting it. Those having in charge the securing of signatures now feel confident that the rest of the operators will fall in line rapidly and the uniformity plan will soon be an assured fact.

The executive committee of the big lake shippers held a meeting yesterday and it is said it was decided to move at once toward opening their mines. The mines were selected, but their location was not made public. As there seems to be a possibility of a settlement at Columbus, active steps toward resumption will not be taken until after the result of that conference is known.

State of Affairs in Cuba.

HAVANA, Sept. 2.—The general situation in Havana and in all Cuba is unchanged from that of the past month from a military point of view. No battles of importance have been fought, though many skirmishes have taken place, with one or two killed here and there and three or four wounded.

A Farmer Killed by His Stepson.

ENGLAND, Ark., Sept. 2.—George Young, a prominent farmer of Indian Bayou, was shot and killed by his stepson yesterday. Young had beaten the boy's mother and the son warned him not to repeat it. This Young did, and the son shot him, the wound causing death in an hour.

TWO WITNESSES EXAMINED.

Third Day's Proceedings in the Luetgert Murder Trial in Chicago.

CHICAGO, Sept. 2.—But two witnesses were on the stand in the Luetgert trial yesterday and when the court adjourned the evidence of one of them was not completed. The first witness was Frank Bialk, the watchman of the factory, who was on the stand Tuesday giving his direct evidence, and yesterday he was turned over to the defense for cross-examination. His testimony was in the main unshaken, although the defense drew from him the fact that it was by no means an unusual thing for Luetgert to be around the factory at all hours of the night. He said in his direct examination that he thought Luetgert was acting in a suspicious manner on the night of the alleged murder, and yesterday said that he was in a position from which he could have seen everything Luetgert did at the vat on the night the murder is said to have taken place, but did not look at him.

The other witness was Frank Odorofsky, an employee of the factory, who placed the caustic potash in the vat on the order of Luetgert. He had been working around the vats for a long time but that night was the first time that he had ever seen any caustic potash in the factory. He testified to finding in the morning near the vat into which he had put the potash on the night before, a mass of slimy brown matter in which he found pieces of bone, and pieces of a substance which he took to be flesh. Luetgert told him to take the stuff away and throw it around the yard, but instead of doing this he dumped it all in one place and afterward showed the police where he had put it.

STORM IN INDIANAPOLIS.

Several Buildings Blown Down, but Fortunately No One Was Killed.

INDIANAPOLIS, Sept. 2.—For an hour yesterday afternoon a storm of unusual violence raged in this city. Buildings were blown down, trees uprooted and vehicles were turned over in the streets. Heavy wagons were blown across the streets and in one instance a transfer wagon was blown through a window into a clothing store.

The roof of Geisendorf's woolen mills was blown off, also a portion of that of the building occupied by the Everitt Seed company. No less than a dozen large plate glass windows ranging in price from \$75 to \$300 each were either demolished by the force of the wind or flying missiles.

Ella McClure, a colored woman, whose home is in Jeffersonville, Ind., was in a buggy, which was picked up and carried several feet by the wind. The vehicle was turned over and the woman fell underneath, where she lay until rescued by a number of men.

The wind preceded a heavy rain and it carried with it great clouds of dust, which completely shut off the view. For a time it was so dark that the lights were turned on in many of the business houses. According to the weather bureau the wind reached a velocity of 65 miles an hour. No fatalities are reported.

Burned a Babe.

NEW YORK, Sept. 2.—Johnny Lynch and Patrick Decantillon, small boys of Brooklyn, were playing in Laquer street, near their home, when they found a peculiar package, apparently of papers and rags. They knocked it about and finally set it on fire. The package did not burn well and the boys examined it. The outside wrapper, which was paper, was burned off and the underlayer was of muslin. It proved to be a pillow slip. Inside the slip was the dead body of a female baby, a day old. The police were notified.

Dragged to His Death.

JEFFERSONVILLE, Ind., Sept. 2.—O. E. Wright, while driving a horse and cart near Wilson's switch, this county, last evening, was fatally injured by a runaway. In falling from the cart, a foot caught in one of the wheels, and he was dragged a half mile before the horse was stopped. His injuries will result in death.

Chicora Disaster Recalled.

ST. JOSEPH, Mich., Sept. 2.—Mrs. Sarah Bromwell, a Chicago medium, says she has located the Chicora through the spirits aboard the boat. She refuses to disclose the location, as she is afraid others may find it and claim the \$10,000 reward.

Falling Off in Immigration.

WASHINGTON, Sept. 2.—The treasury department has prepared the figures showing the immigration for the month of July. They show a total immigration into the United States of 14,756, against 21,471 for the corresponding month last year.

WHOLESALE POISONING.

A Demented Daughter Serves Poisoned Eggs For Breakfast.

METROPOLIS, Ill., Sept. 2.—A wholesale poisoning occurred in the family of Henry Miller, living in the suburbs of this city. The poison was said to have been administered by Nora Miller, a daughter of Mr. Miller, in scrambled eggs at breakfast. Only one death has occurred up to this hour, that of a baby girl aged 18 months.

The others of the family who are in a very serious condition are Henry Miller, his wife, Simon, Albert Oscar, Jake and Agnes Miller and Sophia Schaefer, a servant. Nora Miller is generally thought to be demented. She was not affected by the poison. There is little hope for the recovery of the father, and it is possible that two or three other members of the stricken family will lose their lives.

SWEPT BY A STORM.

Violent Wind and Rain in Northern Ohio.

VERY SEVERE IN CLEVELAND.

One Man Drowned by the Capsizing of His Catboat—Ghouls Frightened Out of a Graveyard—Woman Bound, Gagged and Robbed Reunion of Veterans—Other Ohio State News.

CLEVELAND, Sept. 2.—A violent wind and rainstorm swept over Cleveland about 5 o'clock yesterday afternoon. The storm came suddenly from the northwest and the wind blew at the rate of 56 miles an hour for 15 or 20 minutes.

At Glendale, a suburb, the wind swept down big trees and played havoc generally.

Yachts and small boats in the harbor had a rough time of it. A catboat was capsized a short distance west of the city and blown ashore. The bank at that point is 75 feet high. People tried to rescue the occupant of the boat, but were unable to do so. He was drowned. His name is unknown.

The storm was general throughout northern Ohio. At Akron the wind blew down the walls of the Academy of Music, which burned some time since.

At Dunkirk, Hardin county, the corn crop was practically destroyed by hail.

GHOULS FRIGHTENED AWAY.

Body Snatchers Run Into Watchers Armed With a Shotgun.

PICKERING, O., Sept. 2.—Body snatchers attempted to rob the grave of Mrs. S. W. Ward, near here. She was interred about 10 days ago. The remains were brought here from Lima, and Mr. Ward got an intimation that he had better watch the grave.

Armed with a shotgun, he and several others concealed themselves in the cemetery and were rewarded by seeing four men with a wheelbarrow, picks and shovels approaching. The watchers got excited and alarmed the body snatchers before they got near enough to capture. In their flight they left their implements behind.

BOUND, GAGGED AND ROBBED.

A Woman Surprised by Two Unknown Men While Alone.

RAVENNA, O., Sept. 2.—Two unknown men noiselessly entered the home of Mrs. Ernest C. McClintock, north of this city, yesterday afternoon and surprised Mrs. McClintock, who was seated in the parlor, painting a picture. They threw a coat over her head, quickly gagged her, bound her hands and feet with strings torn from her white apron, and threw her in a corner. They then searched the house, taking \$10 from a drawer and a revolver. Two hours after the men had left the house Mrs. McClintock was found and liberated.

A Wedding on Wheels.

ZANESVILLE, O., Sept. 2.—A very peculiarly celebrated wedding took place near Cambridge yesterday. T. B. Lanning and Miss Jesse Manely drove to that city and secured a license. They went to the residence of Rev. L. B. Moore. As he was not at home they sent for him. Becoming restless, they started to the point where he had gone, but met him on the road. The ceremony was performed while the young couple and the minister stood up in their vehicles.

Recruited at Camp Chase.

COLUMBUS, O., Sept. 2.—The eighth annual reunion of the Eighty-eighth O. V. I. association was held in the senate chamber yesterday. This regiment was recruited in 1862-3 at Camp Chase and Cincinnati. Its colonel was George W. Neff of Cincinnati and its enlistment numbered 1,876. Now so far as known there are but 475 of the regiment living. L. R. Marshall of Washington C. H., the president of the association, presided over the meeting.

Identity Unknown.

WARREN, O., Sept. 2.—The identity of the man killed by tramps at Palanx on the Erie railroad will probably never be learned. The two companions of the dead man who met him at Youngstown, had not heard him give his name and are in doubt as to whether the tramp robbers who attacked them, threw the stranger from the train or whether he fell, after giving up his money, as they had done.

An Arm Crushed.

ATTICA, O., Sept. 2.—Samuel Garber was helping thresh at George Ritz' and in attempting to adjust a belt his left shirt sleeve was caught in the machinery. Before the steam could be shut off he was twisted around in a horrible manner, his arm passing entirely around the pulley. It was completely crushed. His side was fearfully bruised and over his left eye was a deep gash.

A Butcher Badly Cut.

NEW PHILADELPHIA, O., Sept. 2.—As Christian Kappeler, a butcher of this city, was in the act of sticking a beef with a large butcher's knife, the beef gave a lunge striking the handle of the knife with its right fore foot, driving the blade entirely through the left leg of Kappeler. The blade severed a leader and Kappeler bled profusely before surgical aid reached him.

Attempt at Train Wrecking.

LIMA, O., Sept. 2.—The engineer in charge of the first section of freight No. 85, on the Erie road, discovered a pile

of ties on the track, this side of Decatur and succeeded in stopping the train before colliding with the obstruction. A number of tramps were ejected from a train earlier in the morning and it is supposed they placed the obstruction on the track.

Might Have Been Worse.

PORTSMOUTH, O., Sept. 2.—At the Burgess mill yesterday evening a 40-ton fly wheel suddenly broke to pieces. Thirty men were within reach of the flying parts, but strange to say none of them were seriously hurt. The wheel rim was solid iron, 10 inches square. This broke in three pieces.

KICKED TO DEATH.

Horrible Injuries Inflicted in a College Freshman Rush.

BERKELEY, Cal., Sept. 2.—There will be no more "rushes" at the University of California if President Kellogg's latest mandate is exercised. Half dazed, his jaw broken, his face a bleeding mess, Benjamin Kurtz, a newly entered freshman, was found wandering about the campus after the rush between the two lower classes. In the struggle some one put his heel in Kurtz' face and as a result he is disfigured for life and may have sustained an injury of the brain.

An examination showed that a piece of flesh had been torn from one nostril. The upper lip hung only by a shred and the ragged nature of the tear made the injury the more serious. All the front teeth were gone. Four teeth had been knocked out of the lower jawbone, which was broken out with them. Both the upper and lower jaws were smashed and the flesh of the face was crushed and bleeding. There were two other serious casualties. Frank Marshall, freshman, had his right leg broken just above the ankle. Another freshman named Conlon came out of the combat with a broken leg also.

PUBLIC DEBT STATEMENT.

Condition of the United States Treasury at the End of August.

WASHINGTON, Sept. 2.—The monthly statement of the public debt, issued at the treasury department yesterday shows the debt less cash in the treasury to be \$1,008,335,121, which is an increase for the month of \$14,888,475. This increase is accounted for by a corresponding decrease in the amount of cash on hand. The debt is recapitulated as follows: Interest bearing debt, \$847,965,540; debt on which interest has ceased, since maturity, \$2,336,280; debt bearing no interest, \$878,194,507. Total, \$1,228,896,327.

This amount, however, does not include \$593,961,953 in certificates and treasury notes outstanding, which are offset by an equal amount of cash in the treasury. The cash in the treasury is classified as follows: Gold, \$181,234,165; silver, \$519,368,486; paper, \$139,427,064; bonds, disbursing officers' balances, etc., \$18,115,651. Totals, \$858,145,367; against which there are demand liabilities outstanding amounting to \$639,584,100, which leaves a cash balance in the treasury of \$218,561,266.

MR. HATCH IN HAWAII

His Return Has Created a Sensation on the Islands.

HE IS WORKING FOR ANNEXATION

An Extra Session of the Hawaiian Senate Called, Which Will Be Asked to Ratify the Treaty Now Before Our Own Congress—The Japanese Muddle Will Also Be Considered.

SAN FRANCISCO, Sept. 2.—The steamship Australia from Honolulu direct, brings the following Hawaiian advices: Francis M. Hatch, minister to Washington, arrived Aug. 20, with special information which will require the attention of both government and senate and a secret notice has already been issued to the members of the latter body, calling upon them to meet in extra session Sept. 6 to consider the question. Meanwhile Minister Hatch is in almost constant communication with President Dole and his cabinet.

The lawmakers will be asked to ratify the annexation treaty recently signed in Washington, and as a majority of the members favor annexation, the matter will be rushed through.

The reason for the extra session of the senate is a matter of conjecture and much curiosity is evinced. A senator is authority for the statement that Minister Hatch brought word from President McKinley that he had resolved to call congress two months earlier than usual for the purpose of disposing of the treaty before the regular session, and the theory appears to find favor with other senators.

Another matter to be considered by the Hawaiian senate is that of rendering assistance to the executive in unraveling the Japanese muddle, as it is said that Japan's acceptance of the offer of arbitration is so vague that the president and cabinet are in a quandary. There are rumors of a split in the cabinet over the question and it is said that the intervention of the senate is required to prevent an open rupture.

The Hawaiian Star created a sensation by the publication of a scheme, alleging to have been backed by the sugar trust, to block annexation.

NOT DENIED IN WASHINGTON.

President McKinley Will Hardly Call a Special Session of Congress.

WASHINGTON, Sept. 2.—There is no disposition among officials here to question the correctness of the statement in the dispatches from Hawaii to the effect that Minister Hatch hurried to Honolulu with the special purpose of securing annexation action by the Hawaiian government in advance of the meeting of our congress. There is no rule in diplomatic practice that would forbid Hawaii first acting upon the treaty, and the treaty itself does not indicate which government is to take the initiative in the ratification.

While it is regarded as desirable in the execution of the policy of President McKinley towards Hawaii as laid down in his message transmitting the treaty to congress last June, that the document shall be ready in all respects for the action of the United States senate at its next session, it is not believed that the president has any intention of calling a special session for the purpose of ratification. Indeed, considering the fact that if Hawaii's legislature acts with the greatest promptness upon the treaty it can scarcely complete this action and return the ratified convention to Washington before October at the earliest, and it would appear to be unnecessary to advance the session of congress by such a short space of time as would intervene between that date and the date upon which congress meets in regular session.

HERR MOST TO MOVE.

New York Not a Good Place to Spread Anarchistic Ideas.

NEW YORK, Sept. 2.—The Journal and Advertiser says: Johann Most, the high priest of anarchy, will shake the dust of New York from his feet for good within a week. Most has decided that New York is no longer a fruitful field for anarchist propaganda and next week he will go to Buffalo to take charge of The Arbeiter Zeitung.

The circulation of Most's paper, The Freita, has been dwindling for the last two years. It stopped publication recently, having simply died.

"Yes," said Most, when seen about the matter, "I am going to leave New York for more congenial fields. New York is not what it was since our brethren were martyred in Chicago."

Negro on a Trotline.

PINE BLUFF, Ark., Sept. 2.—The dead body of a negro was found hanging to a trotline in the Arkansas river yesterday near Rob Roy. There was nothing on the body by which the man could be identified and no lynching has been reported in that vicinity recently.

Rain is Needed Generally Throughout the State—Weekly Review of the Government Weather Bureau.

[For Week Ending August 30.]

Rain is needed everywhere. Only scattered showers, which, as a rule, were very light, occurred during the past seven days. As a result the reports from nine-tenths of our correspondents are discouraging in tone. Reference to the beneficial effects of the rains which fell on the 22nd is frequently found among this week's reports. It also develops that considerable damage to corn and tobacco, especially the latter, was caused by hail which attended severe thunderstorms on this date in several localities. Light showers fell in a number of northern and central counties on the 23rd and 29th, but over the greater portion of the State dry weather prevailed throughout the week.

In the Western section drouth is again as serious as it was prior to the showers on the 22nd. Instead of being confined to the counties comprising the Green river basin, it has spread to such proportions that the entire Western section, which includes all the counties west of Hardin, Hart and Barren, is now seriously affected.

Showers of a general character would do much good in the Central section, where some counties have been slighted for some time past in the local distribution of rainfall. As a rule crops are not suffering for rain in the Eastern section, though showers might improve tobacco in some localities and late corn generally.

The temperature was slightly below normal during the first half of the week. The nights were especially cool. This delayed the ripening of corn and garden truck. During the latter part of the week the temperature rose rapidly, the average maximum for Sunday over the entire State being 90°. It equaled or exceeded 100° at a number of stations in the Western section both Saturday and Sunday. As the soil has long been dry this excessive heat baked it so hard that plowing for winter wheat had to be suspended wherever it had been commenced. But very little fallowing has been done, considering the advanced stage of the season. The tobacco prospect is very discouraging. An early frost would cause damage untold.

Western Section.—Farmers in this section have about given up all hope of realizing profit on any of their products except wheat, which has long since been laid away or sold. Practically no rain has fallen since the 22nd. Then the rainfall for the section averaged only .40 of an inch. In some few localities the deficiency is not so great, yet out of sixty or more reports no one can be found which does not admit that immediate rains are essential to the advancement of crops. In the district surrounding Ohio and Grayson counties, where drouth has prevailed for three months, correspondents say tobacco is a complete failure. There will be no first-class tobacco, and what they may be able to save, which will hardly exceed one-third the average crop, will be very inferior in quality. Correspondents seem to agree upon only one-half the usual yield of the dark tobacco. Most of it is lying badly. Though cutting is in progress in some localities, yet much of the late planted is in danger of death by frost. All the tobacco in a certain tract one by eight miles square in Christian County was so badly damaged by hail on the 22nd that some growers have plowed their fields. Corn is also in generally poor condition. It is burning rapidly, and in some places is ready for the knife. Rain can not now improve it much. Half of a good year's crop is all that can be saved. The ground is baked so hard that no fallowing has been done. Apples are ripening prematurely and falling fast. Water is so scarce that stock have to be driven some distance to creeks or rivers.

Central Section.—In this section there is less general complaint of dry weather. Yet the improvement in corn and tobacco is very slight. Large quantities of tobacco in Kenton, Campbell, Pendleton, Bracken, Mason, Fleming, Menfee and Rowan counties were damaged by hail on the 22nd. The correspondent in Ken-

Argentine Wheat Short.

BUENOS AYRES, Aug. 30.—The wheat crop in the Province of Santa Fe is calculated at about 10,000,000 tons, scarcely more than enough to supply the province for the year. What is true of Santa Fe Province, it is said, is true in the other provinces; that is, none will furnish more than enough grain for home use.

On Monday, September 13th, classes will be resumed at St. Francis de Sales Academy. Patrons are requested to see that their children are in attendance at 9 a. m. on the 13th, so that there may be no delay in the formation of classes. The numerous friends of Sister Mary Agnes will be glad to know that she has returned from her long sojourn in the North, perfectly restored in health. Sister Mary Agnes will resume her able direction of the musical department, and will be happy to welcome her old pupils.
